EXPERIENCE

Minneapolis Star Tribune | *Digital Designer*
May 2017-Present | Minneapolis, MN
- Helping plan design for various enterprise projects, as well as creating graphics and data visualizations for digital use.
- Working with writers and editors to create daily and weekly visual stories with infographics.

Milwaukee Journal-Sentinel | *News Applications Intern*
January-March 2017 | Milwaukee, WI
- Assisted in designing and developing an investigative project in addition to planning data visualizations for the web.
- Worked on branding for various sections and focused on mobile development of applications.

San Francisco Chronicle | *Graphics Intern*
May-August 2016 | San Francisco, CA
- Worked with writers and designers to develop static and interactives for print and web on a daily basis.
- Coordinated with more than 70 news organizations in the Bay Area to build graphics for an investigative series.
- Sent out public records requests and set up interviews to curate data for designs.

Flashstarts Inc. | *Design/Web Development Intern*
May-August 2015 | Cleveland, OH
- Developed user interfaces and websites for multiple companies.
- Designed various print materials such as banners, business cards, fliers, and brochures.
- Practiced agile development and Lean UX with other developers to create applications.

Procter and Gamble via INTERalliance | *Solutions Interface Designer/Data Curator*
June-August 2014 | Cincinnati, OH
- Led the design of a user interface (UI) and data visualizations with a culturally diverse team to a consumer base of more than 1,000 people.
- Collaborated with the global development team to develop the UI and data visualizations by prototyping and refining the design with users' feedback, in phases.
- Planned and executed socialization events to influence users to use new database software.
